

MaaT Pharma is a clinical-stage biotechnology company and industry leader in microbiome therapies in oncology, leveraging our whole ecosystem approach to develop biotherapies to treat serious diseases. We are implementing an innovative new medical approach focused on the gut microbiota as a source of drug candidates, leveraging our drug development expertise, our gutprint® computational biology platform and our biomanufacturing capabilities. Our pipeline consists of several drug candidates, the first of which is now in Phase 3 clinical testing.

We are driven by our pioneering spirit and are the first microbiome-derived drug development company listed in continental Europe, with an IPO on Euronext Paris in November 2021. We have a humanistic approach to our entrepreneurial adventure. Every recruitment is an opportunity to consolidate our rich and diverse human capital, which now exceeds more than 60 people.

Based in Saint-Quentin-Fallavier (38), we are looking for a:

Medical Devices Development and Manufacturing Engineer (M/F) **Permanent Position**

Position open to people with disabilities

Job Description

By joining MaaT Pharma, you will have the opportunity to participate in the development and production of solutions at the cutting edge of pharmaceutical innovation. Your role will be to participate in the **management of technical projects for our medical devices**.

Start date: As soon as possible

Main responsibilities

Reporting directly to the Manufacturing, Industrialization and Supply Chain Manager, your main responsibilities will include:

- Be the technical reference for our medical devices;
- Set up and manage technical projects for the medical devices product line, write and supervise tests, protocols, reports and plans;
- Design and validate processes and products in collaboration with subcontractors;
- Prepare industrialization by gathering all relevant data and validations;
- Manage technical documentation for design, validation and production of medical devices;
- Participate in risk analysis in collaboration with the quality department;
- Ensure overall communication between team members and with relevant external partners;
- Prepare and draft all relevant documentation throughout the project, from initial watch to transfer documentation;
- Ensure continuous improvement of the medical device, manage and monitor quality files relating to medical devices (change orders, non-conformity reports, complaints, CAPA) and participate in the construction of the quality management system;
- In conjunction with our distribution partner and device subcontractors, manage and optimize the supply of medical device inventories;
- Manage production and guarantee product conformity to specifications;
- Monitor the sterilization process, dose audits and analyses of bioburden trends.

As you can see, this is a position at the very heart of our product development activity, which will enable you to discover a demanding and exciting world!

Qualifications and Experience

- Master's degree in biomedical engineering, biotechnology or equivalent;
- Successful experience in a similar position;
- At least 3 years' experience in project management;
- In-depth knowledge of medical devices and biomaterials;
- In-depth knowledge of the regulatory environment for medical devices in Europe and the US (CE marking, FDA, 510K, ISO 13 845, ISO 14975, MDR 2017/745...);
- In-depth knowledge of sterile medical device management and project management would be a plus;
- Knowledge of biological evaluation, biocompatibility (ISO 10993) would be a plus;
- Ability to work as part of a team and work independently;
- Fluency in spoken and written English.

You are an excellent communicator, flexible, dynamic, proactive, rigorous, and a team player—all qualities essential for this exciting opportunity.

Working at MaaT Pharma means joining a friendly, stimulating environment filled with challenges, within a passionate team, offering opportunities to develop your skills and grow.

If you are motivated about joining a dynamic and a human-sized team in an entrepreneurial and innovative environment, we would love to hear from you. Apply now by sending your resume and cover letter to careers@maat-pharma.com.
